Caramel Coffee

Company Profile

Caramel Coffee Cream is a premium natural product, renowned for its multifunctionality and versatility. Developed to satisfy a wide range of tastes, it can be enjoyed in multiple ways: with hot milk, it becomes a creamy cappuccino; cold, it resembles a refreshing Frappuccino; with hot water, it reveals a fuller-bodied and thicker black coffee; and pure, it can be enjoyed by the spoonful.

In addition to being a beverage, the cream also serves as a base for dessert and pairs perfectly with breads, cereals, cheeses, yogurt, fruits, and ice cream. The Caramel coffee line is extensive, featuring traditional, flavored, black, decaffeinated, zero-sucrose, organic, and zero-lactose varieties.
